

TECHNOLOGY USE POLICY FLORENCE ELEMENTARY

TECHNOLOGY USE NEEDS ASSESSMENT

Our School Improvement Planning process will include:

- An analysis of our State Testing data and other school data as necessary to discover the extent to which our students are meeting state standards.
- Systematic work to discover and correct the causes of and barriers to high performance and the extent to which technology utilization is a factor.
- A revision of our School Improvement Plan based on our needs assessment data for that year. The Plan will set goals and will address contributing technology issues and methods to improve technology use (if necessary) to help move our students to state standards according to the timetable established by the Kentucky Board of Education.

We will implement this process to address technology utilization and barriers, and the resulting Plan will be monitored by the council through ongoing Implementation and Impact Checks.

ACCEPTABLE USE

Each year all students will be required to sign and date an Acceptable Use Policy in order to have access to school computers. This policy is attached and considered part of this Technology Utilization Policy approved by the council.
