

Fifth Grade Unified Arts Newsletter

Goodridge Elementary

April 19, 2019

As we begin our ninth rotation of the Unified Arts schedule, we are working on lots of different and exciting concepts!

In Physical Education, 5th grade students will be learning about Heart Disease and what contributes to it. They will take part in activities that improve heart health like circuit training, yoga, and cooperative games.

In Library, students will finish presenting their National Parks slide presentations. They will also review various styles of poetry and poetic elements such as stanzas, lines, figurative language, rhyme, and meter.

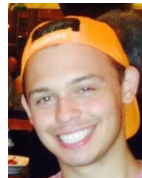

In Stem Lab, 5th grade will be learning about scientific models that illustrate energy movement within ecosystems and biomes.

In Spanish, 5th grade will be learning about different spring time and nature vocabulary. If weather permits we will take a nature walk outside finding and labeling things in spanish!

In Art, we will be creating carved stamp self portraits for the art room ceiling! This is one of the student's most anticipated art projects at Goodridge and we are so excited to add their stamp to the art room ceiling!

In Music, students will be learning about the history of the "Drinking Gourd" and how it relates to African American history and music.
