The library media center will encourage a lifelong pursuit and appreciation of reading. The library media center will provide a setting where students can develop the skills necessary to locate, analyze, evaluate, interpret, and communicate information and ideas in an effective manner.

B. Goals and Objectives of the Library Media Center

1. Provide and maintain a current collection that is diverse in format and content and that supports and enhances the curriculum as well as the pursuit of individual interests.

The primary responsibility for selecting materials for the library media center is that of the library media specialist, under the supervision of the principal. The patrons (students, teachers, administration, parents) are encouraged to offer recommendations of materials to be considered for inclusion into the collection.

D. Collection Development Methodologies

Inventory/Survey of Holdings: The LMS will perform a full inventory/survey of holdings annually, at the end of the school year. The method of this inventory is up to the LMS, and may utilize the staff and possible parent volunteers to assist.

Gifts and Donations: The Florence School library is pleased to accept any monetary donations through the front office of the school, or the district office. The monies should be clearly labeled for Florence Elementary Library, and as any other specifications the donor may have. Books may be donated, to be considered for the collection at the library location. Florence Elementary Library cannot, however, accept donations of used technology, due to
district policy. Upon donation, materials become the property of the Florence Elementary School, and the library media specialist reserves the right to use the materials as is seen fit. Although all donations are appreciated, materials that are outdated or unusable will be recycled.

Repair/Replacement: There are no fines or penalties for books damaged on the first offense, but it must be documented and the librarian may request full payment of any damage thereafter to library materials. When an item comes in damaged it must first be determined as repairable or irreparable. It must be examined according to the weeding criteria first, and then answer the following considerations:

- How many copies does the library have available?
- How often that is copied being used?
- Are there advantages to purchasing this book new?
- What are similarities between the lost item and the current student need?

E. Fundraising

The library will conduct several fundraisers throughout the year. Since the monetary yield cannot be determined until the fundraising activity is conducted, there will not be an allocation determined. These funds will be used to purchase items for the library. Annual fundraisers are as follows.

- Scholastic Book Fairs will be held twice a year, once in the Fall and once in the Spring.
- Other fundraising opportunities include: student grams, family movie nigh't ense'
